

Railroad Items.—The Secretary of the B. & O. railroad company, furnishes us with most cheering news. The rails, chairs and spikes for the new line have been already purchased, and will be ready for delivery about the first of July. The company has now in its possession funds enough to pay for the iron, for all the ties, and for the

Murders.—In Casey county, on the 31st of June Haggard killed a man by the name of Pett, by striking him on the head with a gun, understood that they quarreled about some money, and got into a fight, in which Haggard killed Pett. Barnett.

Haggard has been arrested and is in jail, and will await his trial, having a high chance of being acquitted.

The Grape crop promises an abundance this season. The spring work has been completed with the wine growers in this vicinity progressing with rapidity. As one vineyard follows another, we will in all probability have a dry summer, which will be advantageous to the maturity of the grape. Should this be the case, the crop will be unusually large.

We may look for an extensive immigration of grape vines to this county during the next season. The Yavapai county is better adapted to grape culture than any other county in the State, and has many eligible sites for vineyards.—*Arizona (Y.) Sentinel*.

IN THE RACE FOR MAGISTRATES, IN FRANKFURT, ON SATURDAY LAST, THE DEMOCRACY ELECTED SEVEN OUT OF TEN—a clear gain of six, and in the case of Constables, three out of five, a gain of two.

TRIBLE DEATH—ENACTING THE SICKLES TRAGEDY FOR AMUSEMENT.—A correspondent of the New York Express, in a recent letter from Louisville, Tennessee, relates the following: "A dreadful accident has just occurred at the school, about fifteen miles from this place. The students were trying (illustrating) the Sickles case in moot court, when the young man who was playing the part of Sickles jerked out a pistol which he did not know was loaded, and shot his own

ate friend, who was taking the part of Ker, through the chest. Mr. Tapp took the part of the friends, and Mr. Burke the part of Ker. It is said that, but the shot was purely accidental. It was at first thought that Mr. Burke would suffer, but mortification has taken place. Mr. Burke has suffered so much in mind that he has three times tried to kill himself, but has been prevented by his young friends. I hope this

day morning, to obtain employment, and that a man named George Harris, who had been arrested for a boy, had authorized him to take the boy to the bank. Harris immediately took him into custody, and, according to Mowry & Co.'s bank, the boy was questioned, and related his story with such sincerity that he was believed to have been an innocent victim of the forger. He said he had seen the advertisement for a "boy wanted," and had gone upon Mr. Harris, at the Gibson House,

fact that there is a general impression at the North that by some hook or crook we are to have a Republican for our next President, and this conviction is not confined to the "Republican party, who are, of course, interested in him," but it seems to be a general sentiment spreading the public mind. And there are several reasons for this opinion. The great bulk of the Democratic party at the North, at any rate, are

By all the managing politicians and leaders expected to stand upon the platform which the Supreme Court has laid down—in fact refuse to challenge the Constitution as interpreted by the judiciary. The Southern States, therefore, cannot be expected to harmonize with a party which professes to avoid its Constitutional duties, and hence there is imminent danger of a split in the party. CHILD SMOTHERED TO DEATH BY ITS PARENTS
A female child, only four weeks old, was smothered to death by its parents, in Cincinnati, Monday morning last, about 8 o'clock, on Bannock street. The father of the child, John Hennep, and his wife, both Germans, are very much excited, and were drunk on last Sunday night, following the death of the child. The neighbors conjectured that the child had been killed by

AND J.—There are no two letters in the master alphabet of the English language which give so much trouble or cause so much misapprehension, as the two letters I and J, as many instantly write them. The rule for writing them is, I only, and which should be universally understood and adopted, is to extend the J below the line, while the I should be written even with the line. If those who write I for J know how to write, sometimes hurried printers, they would never

The river continues to fall, though slowly yesterday, with a steady breeze from the east, and the water is now at its lowest level in the season. The canal there were 6 1/2 feet water by the mark, but owing to the immense accumulation of mud, there were not over 4 feet of water in the canal. During the night 24 hours the river had receded 3 inches at the head of the falls, and fully one foot at Portland. The weather was clear and rather cool in the morning, but very warm last evening.

At Pittsburgh and Cincinnati the river continues to recede, and all the new arrivals are falling fast, according to the signs of old boatmen, portends another rise. Their experience warrants the assumption that the fall of the river is sure to be immediately followed by a rapid rise.

Two Mississippi river continues to recede at St. Louis, though the upper Mississippi was reported at full, if not flood tide. It had risen so high at St. Louis that the river was nearly submerged. One of the bridges over the Black river, near that point, has been carried away, and the cars are unable to reach the depot.

At Cape Girardeau, the superintendent was compelled, yesterday morning, to close the canal, in order to remove the mud that had accumulated in the locks. The water was nearly seven feet in the canal, but yesterday morning the water had receded to such an extent that the canal was nearly dry.

The gallant Woodford, from Cape Girardeau, was at Vicksburg Wednesday, at 2 o'clock P. M., with a good trip. She left port Monday evening.

The Eclipse cleared for New Orleans last evening with a light freight, but Capt. Spots has a good trip engaged, including 700 bushels of tobacco, at Henderson and Paducah, and 5,000 bags of cotton.

To the attention of the officers of the independent packet Co. Sam, we are indebted for New Orleans papers, forwarded from Cairo, the latest St. Louis Standard, for New Orleans.

We learn that our dear friend, Henry Landrum, is now clear in the morning at New Orleans. The Tempest, as we learn by dispatch from Capt. Parr, was at Clarksville yesterday, on her way to this port, with 100 bushels of tobacco and 200 barrels of flour.

At St. Louis, the coalboat that lodged on Sand Island has been lightened of all right, through the management of Messrs. Carson and Little. This is the best result of the accident.

By telegraph, we learn that the steamer John Rine, from Louisville, arrived at New Orleans on Tuesday morning. The steamer had departed, and that the river was falling slowly.

The John Bell, we learn from Capt. Austin that the John Bell, now repeating and re-impounding at Jeffersonville, is now in good trim for the summer season. She is light and staunch.

The Pacific, Capt. Jesse K. Bell, is due from New Orleans early this morning, and will depart for St. Louis on Saturday, and will make the trip on Sunday. She returns to New Orleans tomorrow.

The James Montgomery having been detained, takes her departure to New Orleans this evening. She starts from Portland.

The Antonio, from New Orleans, is now at the wharf, and will probably be left on arrival, as her advertisements are withdrawn.

BY TELEGRAPH.

NEW YORK, May 12.—Among the evidence given of the increasing depression of the country, especially of a mercantile character, it is stated that the number of messages daily sent over the various telegraph lines has fallen off 25 per cent. in the last week.

The three principal telegraph lines of the American Telegraph Company, located in Wall street, known as the Boston, Washington and New York wires, transmitted respectively, 437, 338 and 442 private messages, and about 5,000 words of public news reports, and that too, through the very disagreeable storm which lasted the whole day.

From Washington, May 12.—Private dispatches from Mexico, received at New Orleans by the Tennessee, and telegraphed to this city, represent the prospects of the Liberals for taking the City of Mexico as encouraging. The efforts of Miramon to raise money in Europe on the church property are considered futile, in view of the hostile condition of affairs. The capture of the City of Mexico is, therefore, considered as merely a question of time.

Further by the Tennessee, New Orleans, May 12.—Dates from Mexico to the 3d ult. state that Miramon has decreed all the Gulf ports closed to foreign commerce. General Guebara has been taken by the Liberals. The clergy are trying to raise the 40,000,000 for Miramon, but are unsuccessful.

Drafts Stolen at Cincinnati, Cincinnati, May 12.—Chicago drafts on New York, amounting to \$13,000, were made to the order of Capt. Cobb, were stolen from the office of Mr. Cobb, this afternoon. The drafts were not indorsed.

Steamer Melotte Sold, Pittsburgh, May 12.—The steamer Melotte was sold to-day, to Capt. K. Calhoun, for \$15,000.

River and Weather, Pittsburgh, May 12, P. M.—River 4 feet 7 inches by New market and falling; weather clear and warm.

Arrived—Alma, Departed—Empire City, for St. Louis, Rochester, for St. Louis; Endeavor, for Louisville.
